RE: SUMMER SCHOOL BUS ROUTES

Attached is a list of approximate times for pick-ups along those routes.

As you know, we do not pick up students at their doorsteps, even if they live along the route we are driving. However, we might reconsider stopping ALONG THE ROUTE at a home IF there are multiple students who will be getting on at that one stop. At present, we do not intend to leave the current route.

Should you have questions concerning this memorandum, please give me a call.
